**today, we will be
discussing crazy
facts about
volcanoes!**

first i want to ask you guys a question!

**what do you know about
volcanoes?**

Volcanoes are **MOUNTAINS!**

Volcanoes open down into
the middle of the earth!

Magma is in the middle of
the earth!

When **magma**
builds up,
volcanoes ERUPT!

Magma that
erupts is
called lava!

there's nothing to fear though!

volcanoes can be good!

they create
new islands
and land

they provide
habitats to
some species

create
beautiful
landscapes
